

vigyan Vividha 2009

12 to 14 November, 2009

www.hbcse.tifr.res.in/vigyanvividha

Homi Bhabha Centre for Science Education plans to organise Vigyan Vividha 2009, a festival of science and technology. This festival is initiated as a part of the birth centenary celebrations of Dr. Homi Bhabha.

This festival includes pavilions on space, health, climate and weather, atomic energy, astronomy, design and craft and teaching modules, which offer opportunities to students from school and college, teachers and parents to know about the developments in these areas. This is a rare chance for all participants to engage in hands-on activities in science, design, technology and mathematics. Vigyan Vividha 2009 will have a variety of formats for interaction: lectures, demonstrations, competitions, puzzles, games, projects, movies, performances, educational materials, and many more.

We request all schools and colleges to publicise this event among their students, teachers and local communities to enable their participation in the event in large numbers.
